

How To Add A New Link (**Page_1** is used in the example below) To The **MORE INFORMATION SIDEBOX**.
Link / Text Can Be Turned **ON/OFF** In: **ADMIN/CONFIGURATION/DEFINE PAGE STATUS**
Link Can Be Edited In: **ADMIN/TOOLS/DEFINE PAGES EDITOR**

/includes/filenames.php

Edit above file in Notepad.

Insert **define('FILENAME_DEFINE_PAGE_1', 'define_page_1');**

above Line:

define('FILENAME_DEFINE_PAGE_2', 'define_page_2');

and

Insert **define('FILENAME_PAGE_1', 'page_1');**

above Line:

define('FILENAME_PAGE_2', 'page_2');

/includes/languages/custom_template/english.php

Edit above file, *if using a custom template*, in Notepad.

Insert **define('BOX_INFORMATION_PAGE_1', 'Page 1');**

above Line:

define('BOX_INFORMATION_PAGE_2', 'Page 2');

/includes/languages/english.php

Edit above file in Notepad.

Insert **define('BOX_INFORMATION_PAGE_1', 'Page 1')**

above Line:

define('BOX_INFORMATION_PAGE_2', 'Page 2');

/includes/languages/english/page_2.php

Copy and Rename Above File To: **page_1.php**

Edit **page_1.php** in Notepad.

Edit line #19 to read: // \$Id: page_1.php 1969 2005-09-13 06:57:21Z drbyte \$

/includes/modules/pages/page_2/header_php.php

Create an **/includes/modules/pages/page_1/** directory.

Copy and Paste the **/includes/modules/pages/page_2/header_php.php** file to the

/includes/modules/pages/page_1/ directory.

Edit line #14: of the the **/includes/modules/pages/page_1/header_php.php** file to read:

**\$define_page = zen_get_file_directory(DIR_WS_LANGUAGES . \$_SESSION['language'] . '/html_includes/',
FILENAME_DEFINE_PAGE_1, 'false');**

/includes/modules/sideboxes/more_information.php

Add the line:

```
if (DEFINE_PAGE_1_STATUS <= 1) {  
    $more_information[] = '<a href="' . zen_href_link(FILENAME_PAGE_1) . '"'>'.  
BOX_INFORMATION_PAGE_1 . '</a>';  
}
```

Above the line below:

```
if (DEFINE_PAGE_2_STATUS <= 1) {
```

```
$more_information[] = '<a href="" . zen_href_link(FILENAME_PAGE_2) . "">' .  
BOX_INFORMATION_PAGE_2 . '</a>';  
}
```

/includes/templates/template_default/templates/tpl_page_2_default.php

Copy and Rename Above File To: **tpl_page_1_default.php**

Edit **tpl_page_1_default.php** in Notepad. Edit each line to read as follows:

Line #2 : * tpl_page_1_default.php

Line #8 : * @version \$Id: tpl_page_1_default.php 3464 2006-04-19 00:07:26Z ajeh \$

Line #14 : <?php if (DEFINE_PAGE_1_STATUS >= 1 and DEFINE_PAGE_1_STATUS <= 2) { ?>

Line #18 : * load the html_define for the page_1 default

/includes/templates/template_default/templates/tpl_site_map_default.php

Edit above file in Notepad.

Add the line:

<?php } ?>

<?php if (DEFINE_PAGE_1_STATUS <= '1') { ?>

 <?php echo '' .

BOX_INFORMATION_PAGE_1 . ''; ?>

Above the line below:

<?php } ?>

<?php if (DEFINE_PAGE_2_STATUS <= '1') { ?>

 <?php echo '' .

BOX_INFORMATION_PAGE_2 . ''; ?>

/admin/includes/languages/english.php

Edit above file in Notepad.

Add the line:

define('BOX_TOOLS_DEFINE_PAGE_1','Page 1');

Above the line below:

define('BOX_TOOLS_DEFINE_PAGE_2','Page 2');

/admin/includes/languages/english/define_pages_editor.php

Edit above file in Notepad.

Add the line:

define('TEXT_INFO_PAGE_1', 'Page 1');

Above the line below:

define('TEXT_INFO_PAGE_2', 'Page 2');

/includes/languages/english/html_includes/define_page_2.php

Copy and Rename Above File To **define_page_1.php**

Edit **define_page_1.php** in Notepad.

Change Page 2 Sample Text ... to Page 1 Sample Text ... Save. Upload it to

/includes/languages/english/html_includes/ folder.

Login To The Admin Control Panel

Go to **Tools / Install SQL Patches.**

Copy and Paste The Following Into The Large Text Box:

```
INSERT INTO `configuration` ( `configuration_title`, `configuration_key`, `configuration_value`,  
`configuration_description`, `configuration_group_id`, `sort_order`, `last_modified`, `date_added`, `use_function`,  
`set_function`)  
VALUES ('Define Page_1', 'DEFINE_PAGE_1_STATUS', '1', 'Enable the Defined Page 1 Link/Text?<br />0=  
Link ON, Define Text OFF<br />1= Link ON, Define Text ON<br />2= Link OFF, Define Text ON<br />3= Link  
OFF, Define Text OFF', 25, 100, NOW(), NOW(), NULL, 'zen_cfg_select_option(array("0", "1", "2", "3"),');
```
